

The Future of Investment Property Selection and Advice

Investment Property in an Advice Framework

The I-Invest Property System has been designed for Advisors who:

- Believe that direct property should be included as a part of your Clients' investment portfolio
- Have been concerned by many of the practices around property "education" or "advice"
- Have been unable to access a transparent 'advice-based' approach to property selection

If you are an Accountant, Financial Planner, Finance Broker, Solicitor or Property Professional I-Invest Property gives you the opportunity and the confidence to include a transparent and credible property fulfilment system within your business.

Simply refer to our Accredited Consultants or 'up-skill' for a greater share of revenue. Trained and accredited advisors will receive the knowledge and tools to construct quality advice in a fee for service or commission based model supporting industry standards.

The I-Invest Property System provides Advisors with:

- Independently audited investment property,
- An easy to use property investment analysis tool,
- Cost and profit assessment,
- The capability to model an investment portfolio to achieve or optimise client results,
- Access to a range of Professionals and value-added services to support your advice,
- The ability to order and track the property investment selection from registration of interest to settlement, and
- The option to monitor the performance of a portfolio to assist investors make profitable investments decisions now and in the future.

The provision of advice to help investors make better decisions has never been easier and more effective whilst at the same time supporting a regulatory framework.
